Calcium Lactate

Cataplex® F

The History & Principles of Standard Process

Founded in 1929 by Dr. Royal Lee,

Standard Process has been a leader in the field
of natural whole food supplements for more than 75
years. Dr. Royal Lee believed that, "The quality of a
whole food supplement is dependent on the quality of
the manufacturing process." This remains the
foundation of the Standard Process doctrine today.

Owned and operated by relatives of Dr. Lee,
Standard Process manufactures its supplements from
start to finish at its facility located in the heartland of
America: Palmyra, Wisconsin. Beginning at the
company's 1,000 acres of farmland and continuing
through the final stages of our unique processing,
Standard Process provides the highest
quality food supplements available.

SUPERHEROES

Like You Must Defend
Against Immune Invaders

ENHANCE YOUR SUPERPOWERS

Okay, so you don't really have superpowers...

What you do have is an immune system that, when healthy, enables you to accomplish hundreds of tasks on a daily basis. You need to guard it from continuous pressures, such as:

- Stress
- Environmental pollution
- Poor eating habits
- Lack of sleep and exercise

Taking whole food supplements can help support your immune system from the stresses of modern life and changing seasons.

Daily Support

Immuplex®, taken every day, keeps your immune system strong and healthy. It provides support by nourishing the organs and glands that make up your body's immune system.*

Have Your Defenses Failed?

Congaplex® supports the upper respiratory tract, thymus gland, and the health of your white blood cells, which are responsible for attacking invaders. It contains ribonucleic acid to help your body build new, healthy cells.*

If you have children, try **Congaplex® (Chewable)**, which provides the health benefits of Congaplex in a great tasting, raspberry flavored chewable tablet.

Thymex® can be used with Congaplex to provide added support to the thymus gland when your immune system is under stress.*

Cataplex® C provides a whole food source of vitamin C, an important antioxidant that has long been recognized as an essential nutrient for supporting healthy immune function.*

Calcium Lactate is important to take every day, but it is especially important to take when your immune system is weak. Your white blood cells require calcium to work efficiently.*

Cataplex® F, in tablet form, helps your body utilize calcium.*

Ask your health care professional how you can begin supporting your immune system with these high-quality whole food supplements from Standard Process.
